

STUDYING IN PISTOIA

OPPORTUNITIES FOR STUDY AND TRAINING IN EARLY CHILDHOOD EDUCATION CENTRES

For over twenty years, Pistoia has built up a very extensive network of early childhood education services that has come to the attention of the international community.

The “*Studying in Pistoia*” programme offers a wide variety of opportunities to learn about the educational experiences that the city plans for children.

Each year the infant-toddler centres, nursery schools and *AreeBambini* welcome numerous visitors from Italy and all over the world who are interested in learning about them.

This rich heritage of knowledge and experience is made available to anyone already working in the sector, wishing to reflect more deeply on educational and organizational strategies, or to those about to enter the field.
